Introduction

Although Cyprus has some 5000 years history of wine-making there is no doubt that amongst wine-lovers, the perceptions of the quality of the island's wines has been generally very low. Indeed there has never been a quality wine producer in North Cyprus. Many said it was not possible to make fine wine in the north, and now...

The project has taken 14 years to come to fruition and has involved considerable investment in both capital and time. Mustafa and Sengul have shown that this genuine land could be home to world class wine.

The image displays two overlapping screenshots of the Lincguide website. The top screenshot shows the homepage with a navigation menu including 'Home', 'Turtle Conservation Project', 'Kyrenia Animal Rescue', 'The British Residents Society', 'Cyprus Pumas', and 'Mountain Trail Association (KMTA)'. Below the menu is a search bar and a 'Lincguide: In the Loop' header. The main content area features an article titled 'Pumas defeated on home soil' dated 28 Apr 2009. The article text describes the Cyprus Pumas' first defeat of the season against the UN. A photograph of a football match is shown. Below the article are social sharing options and a 'Comments (0)' section. The bottom screenshot shows a similar layout but with an article titled 'Legal Questions - Answered' dated 22 Apr 2009. This article includes a list of legal questions and answers, such as 'Registering your contract' and 'Land tax held by the developer'. A photograph of a laptop keyboard is also visible. A 'Side Banner' area is present at the bottom of the second screenshot.

Lincguide's blog 'In the Loop' features articles on anything from legal advice, to interviews, film reviews, special guests, traditional recipes, holistic remedies, sport, pretty much anything we think you should know about from Northern Cyprus and beyond. It also features information on local charities and groups together with upcoming not to be missed events in the social calendar.
